

Stage 3 Pitt Town PS - Home Learning - Term 3 Week 10

You will **NOT** need access to a digital device and help from a parent/carer to complete the following activities.

	Monday	Tuesday	Wednesday	Thursday	Friday
Morning	<p>English Reading - Read for 20 mins each day.</p> <p>List your 5 favourite characters from any of the books that you have ever read. Explain why each one is one of your favourites. See if there are any similarities between the reasons that you have given for each character.</p>	<p>English Reading - Read for 20 mins each day.</p> <p>Often, movies are created based on books. Name a book you have read that has also been made into a movie? Which did you prefer? Come up with 3 things that were better in the book, and 3 things that were better in the movie.</p>	<p>English Reading - Read for 20 mins each day.</p> <p>Name a book that you think would make a great movie and why? Imagine that book is now a movie: Which actor/actress would play the main character and why? Where would the movie be made and why? Describe the setting of the movie?</p>	<p>English Reading - Read for 20 mins each day.</p> <p>Read the following piece of writing and highlight persuasive techniques that have been used:</p> <p><i>You think plastic bags are harmless? Tell that to the dolphin with the plastic bag wound around its snout, slowly starving to death. You think they're light, cheap and easily thrown out? Over one million bags a week are buried, ditched and dumped in our country. One little bag blowing in the wind couldn't hurt, could it? One maybe wouldn't, but a million does.</i></p>	<p>English Reading - Read for 20 mins each day.</p> <p>Create an artwork based on the book that you are reading. It can be the cover of the book, the setting of the book, a scene from the book or a portrait of a character from the book. You can make it abstract, realistic, representative- be creative!</p>
	<p>Brain Break This game has only one rule: keep the balloon off the floor! Challenge yourself to keep the balloon or beach ball afloat using only hands, feet, or even heads. At home we call it "keepy uppy" like from Bluey. Good luck!</p>	<p>Brain Break Put a paper/plastic plate or magazine on your head and walk across the room. Time how long you can keep the plate on your head for. Make it harder by trying to walk on your tippy toes.</p>	<p>Brain Break Stand up. Move your right foot in a clockwise circle. Simultaneously write the number 6 in the air with your right pointer finger. Repeat this pattern several times and then switch to the other foot and hand. Try reversing the motions to counter-clockwise and the number 9. Repeat step 5 and spell out your name at the same time.</p>	<p>Brain Break Hold left hand out in front, with fingers pointing up to the ceiling. Slowly trace your hand with your right finger, starting where your hand and wrist meet. As you trace each finger, breathe in as your finger climbs up each finger and breathe out as your finger slides down. Then switch hands.</p>	<p>Brain Break Stand up. Place your right hand across the body to the left knee as you raise it. Do the same thing for the left hand on the right knee as if you were marching. Do this for 2 minutes</p>

	<p>Writing - Persuasive</p> <p>Read the following 2 passages. Decide which one you think would get a better mark and explain why.</p> <p>1. I think cats are better than dogs because of these three reasons. They are neater, quieter and you don't have to walk them every day in the rain.</p> <p>2. They slobber on your best outfit, they bark all night and their breath smells exactly like meat left out in the sun for a week. Dogs as pets, I don't get it. Give me a cat quiet and curled up on my knee, purrrrrlease.</p>	<p>Writing - Persuasive</p> <p>Look at the following 3 statements-</p> <p><i>Ham and pineapple is the best pizza topping.</i></p> <p><i>Firstly, the combination of salty ham and sweet pineapple is delicious.</i></p> <p><i>In conclusion, ham and pineapple is the best pizza topping which is why it is on every pizza menu.</i></p> <p>Brainstorm ways to improve each of these sections, of a persuasive writing introduction, transition and conclusion, written above.</p> <p>Speaking and Listening - BTN</p> <p>Discuss with a family member the most important/interesting story that you found this week on BTN. What questions do you still have about the story?</p>	<p>Writing –Persuasive</p> <p>Imagine that you are new to the area and about to start at a new school.</p> <p><i>How would you be feeling?</i></p> <p><i>What might you be thinking about?</i></p> <p><i>What would make you feel better?</i></p> <p>Consider the 5 (+1) senses-</p> <p>see</p> <p>smell</p> <p>hear</p> <p>touch</p> <p>taste</p> <p>feel (emotions)</p> <p>and write a description of going to school on the first day.</p>	<p>Writing - Persuasive Testing Persuasive Techniques</p> <p>Rule of three- using repetition, rhetorical questions and emotive language are three techniques used in persuasive writing.</p> <p>Pick one of the following topics and write a paragraph using the rule of three:</p> <ul style="list-style-type: none"> •Plastic bottles •Nuclear power •Climate change. •Your own choice <p>Speaking and Listening -</p> <p>Two truths and a lie. Play this game with any willing participants from your family. Each person comes up with 2 things that are true and 1 thing that is false. You can then ask each other 3 questions to try and 'catch them out' in the lie. What do you notice when someone is not telling the truth? Do they struggle to answer the questions? Do they always put their lie third in their list? Do they laugh, or not look at you when they say their lie?</p>	<p>Writing -Free writing Friday</p> <p>Wellbeing week- write for enjoyment. Make up a story, write in a journal or just write a list of things that you would like to achieve next year. It's up to you!</p>

Recess Break

Middle

Mathematics

3D Shapes

Find 5 Prisms and 5 Pyramids around your home and draw them. Name what type of Prism or pyramid they might be?

(Rectangular Prism, Cube, Square based pyramid, triangular based pyramid, rectangular based pyramid are some of the possibilities.)

Mathematics

3D Shapes

Cylinder is not a prism. It has 2 parallel ends that are the same shape, but they are not polygons. They have curved surfaces joining the ends but no faces so it is not a prism.

Cone

A cone is not a pyramid, it has a circle for a base. It has one curved surface going to a point but no faces.

Sphere

A sphere is not a prism or pyramid. It has one curved surface only.

Find and draw as many cylinders, cones and spheres that you can find in your room.

Mathematics

3D Shapes

What Shape am I?

I have no flat surfaces, I have no straight edges, I have just 1 curved face.

What Shape am I?

I have one curved face, I have one flat face, My flat face is a circle.

What shape am I?

I have six flat square faces, I have 12 straight edges, I have 8 corners.

What Shape am I?

I have 1 curved surface, I have 2 flat circular surfaces.

Mathematics

3D Shapes

The net of an object is the flat shape that can be folded into a 3D solid.

This is one net for a cube.

There are other ways to make a cube.

See how many 3D shapes you can draw the net of and label what shape they are.

Mathematics

Working Mathematically

Using the numbers 1-8, each side needs to add up to the number in the middle.

Can you put the numbers 1 to 8 in each of the squares so that each side adds up to the middle number?

Find the answer on the next page

Brain Break

This is a 2-person game. On the count of three, players pick their position with their hands: Rock-hand in a fist, Paper – hand flat, paper down, Scissors – extend the first two fingers and hold them apart. The winner of the round is determined by the items formed:

**PDHPE: Health
A to Z of Fruit and
Vegetables - Game!**

Game 1.

Starting with the letter A and moving down through the alphabet...can you name a fruit or vegetable for each letter?? Apple, Banana....keep going!

Game 2.

Partner word game. You start by naming a fruit or vegetable.

Let's say you said "Banana". Your playing partner then has to think of a fruit or vegetable that starts with the last letter of "Banana". Maybe they say "Apple".

Now its your turn again. The last letter of "Apple" is E. So can you think of a Fruit or Vegetable that starts with "E"? Keep going...until one of you can't answer anymore. Have fun :)

Brain Break

Stand up. Blink your left eye while simultaneously snapping your fingers with your right hand. Now blink your right eye while snapping with your left hand. Try to blink one eye while snapping your fingers on the opposite side's hands 15 times in a row, alternating eyes. In other words, blink your left eye while simultaneously snapping with your right hand and then blinking your right eye while snapping with your left hand

Brain Break

Stand up. Choose 5 different movements to complete in descending order e.g. do 5 star jumps, spin around 4 times, hop on one foot 3 times, do 2 push ups, walk around the desk/table once

Brain Break

Covering your ears with your hands, take long and slow breaths in and out as you imagine waves rolling back and forth. Listen to the sound of your slow breathing for 2 minutes.

Brain Break

Stand up. Pat your head with your right hand. Rub your stomach with your left hand. Switch hands.

Extra challenge: sing your favourite song at the same time as you are doing this.

Physical Education
Eye Spy Walk.

Let's take a walk with Mum or Dad or someone else in the house.

This will be an "Eye Spy" walk.

So one of you can start with "I spy with my little eye...something beginning with ?"

If your walking partner can't guess what you are looking at....then you tell them the answer.

Now it is their turn.

Eye Spy Walk..with a 'twist'.

If you like...there can be a penalty for not being able to guess what your partner is looking at. Maybe it is 1 pushup? Maybe it is a burpee? Maybe it is a star jump??

Have fun:)

Geography

Think of a biome (it might be a desert, a rainforest, grasslands or tundra). Create and draw a 'new species' that could live in this environment. Label the features of your species and explain why these help your creature to survive in the chosen environment.

For example, if I chose the desert, my creature might have an extra stomach that stores water, or a large strong horn on its head, so it can break into the dry earth and find food, it might be covered in thick armour-like scales that reflect the sun. Have fun with this and be as creative as you like- but be sure to explain your creature's features.

Physical Education-
Going on a "Bear Hunt"!

Time to exercise your body and your imagination.

You will create an imaginary adventure in which you must run - skip - jump - crawl your way through the house (and a little bit outside).

Get a brother or sister to write the story if you like..or Mum or Dad. Always fun with a family member joining in.

When you come upon a branch...you must duck. When you reach a log..you must jump. When you come to a river....swim (get down on the ground).

When you meet the "Bear"...run back the way you came...repeating all the exercises you did on the way. Have fun :)

Science

Create an obstacle course. Sketch the course. When you have a go at the course, notice all the things that require a different type of 'energy'. It may be a force, kinetic, chemical, push/pull. List these forces on your diagram.

CAPA.
Leaf Rubbings.

Today we are going to have lots of fun with our Leaf Rubbing activity.

You will need....

Leaves.

Dead leaves or ones from a tree or bush. Maybe you will need to go for a walk to find some. 5 to 10 leaves of different shapes and styles would be good.

Paper.

Just some plain white paper or a sheet from an exercise book if you don't have plain paper.

Pencils / Crayons.

Crayons if you have them. But pencils will work fine also.

What to do.

Place the paper over the leaf and start to rub side to side - gently with your crayon or pencil. You will need to experiment to see what gives you the best effect.

Extras.

You can colour the background between the leaves or just overlap them. Have fun. :)
