

A snapshot of learning in 1/2P

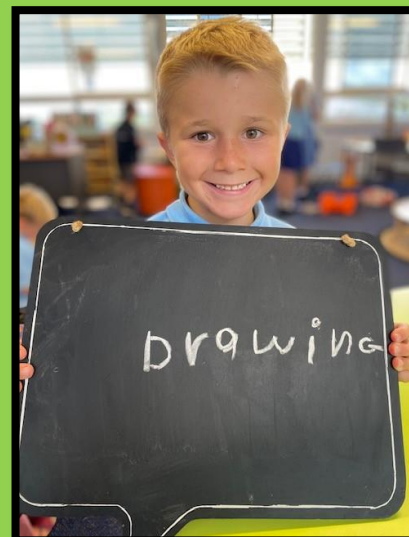

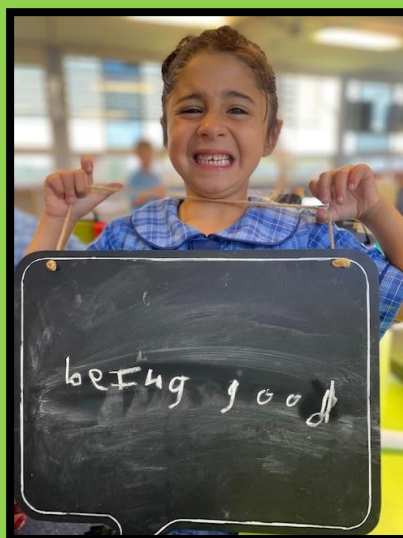

In Visual Arts, students have explored the 'elements of art' including colour, line, shape, and sculpture. We used a variety of paper to create 3D paper sculptures.

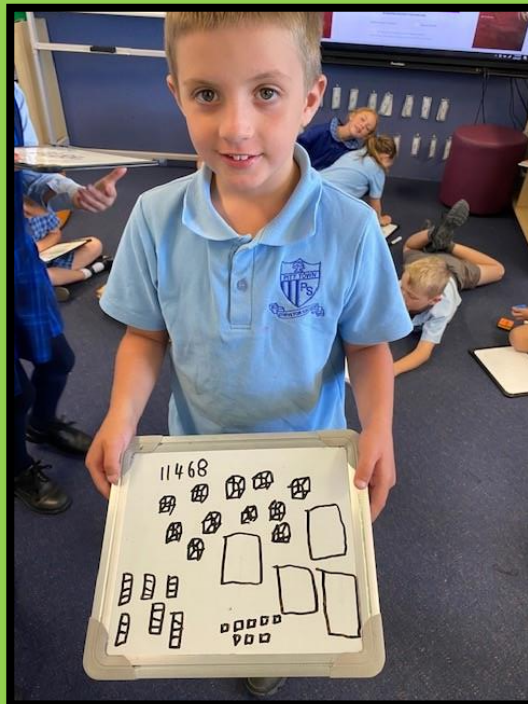

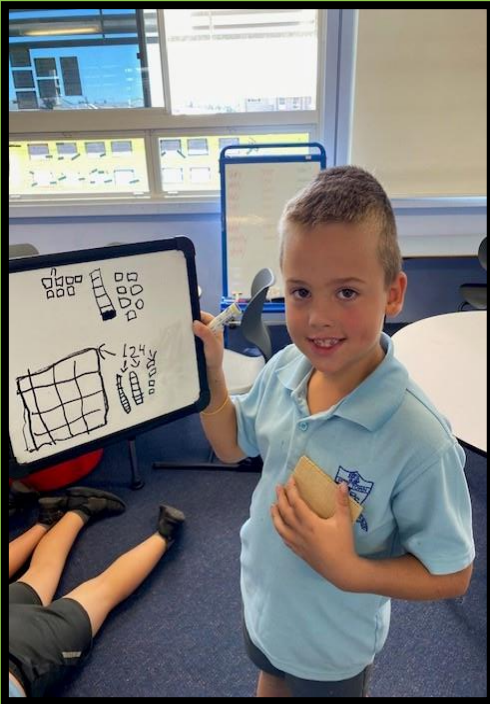

Getting outside and playing a variety of sports and games is a great passion of ours.

Goal setting to always improve our learning!

We have been focusing on Whole Number this term and representing numbers in a variety of ways.

We loved Fairy Tale Day! Students learnt about the structure and language features of writing a narrative, as well as creating and developing their own Fairy Tales.
